Postlude

Before starting the Nurse Aide training program at New Hope, Hannah was working a minimum wage job and knew it wasn't going to sustain her long-term. She learned about our Nurse Aide program, and thought "I could see myself doing that in the future." We helped Hannah get started in the Nurse Aide program. She took our program classes, and was so impressed at how well New Hope prepared her for clinical studies at Harrisburg Area Community College. ***"New Hope made sure I was prepared, and I enjoyed making many new friends during the course of the pre-clinical training."*** Once

clinicals started, Hannah had to cut back on her work hours so she could focus her attention on school. During that time of need, New Hope was able to assist her with gas cards for transportation to continue her training. Hannah successfully completed the clinical program which led to a job in the medical field!

"My new job felt like home to me. If it wasn't for New Hope, I wouldn't be in the position I am in today, being in a field that I love!"
