

Questions for Conversations

042323

What questions do you have about today's message?

Rob mentioned that the Holy Spirit changes us in the following ways.

- Truth: Right Information
- Right Choices
- Ecstatic Experience
- More Power
- Permanent Attachments

Are there are other ways that you can think of?

Which of those have you experienced?

Are there some that you have not experienced (this is just for conversation, I am not looking for a particular answer).

Rob was suggesting that the last one is the one we have given the least amount of attention to. Do you think he is right? Why might that be?

What could we do to address that? What would it look like?

Perhaps you want to go through a passage on love together and replace the word love with attachment.

Share and prayer.
