

Questions for Conversations

073023

In a purely worldly way (don't overly spiritualize it), how much money does someone need to be rich nowadays?

What questions about this week's message do you have?

Rob's points of application were

- Don't assume you don't have the disease
- Watch the "self-talk"
- Be a "Prepper"
- Pay back the loan
- Cry out to God and pray for the Holy Spirit's help.

Where is your greatest need or what will be the biggest challenge?

Do you think we will have to give an accounting on the day of final reckoning of what we have held on to? How do we know we have done well and what are signs that our attitude towards money and things is a problem?

What are the conversations you have with yourself that interfere with you hearing God? (it doesn't have to be about money and possessions)

Have you spent as much time, energy, effort on your spiritual preparation for the future as you have your financial preparation for the future?

Do you think we are able to reach a point where we understand who is really rich and who is really poor?

Why or why not?
