

Questions for Conversations

060125

Think of a time (and share it) when you were surprised, particularly because your perspective of someone or something was changed.

What caused you to think the way you did? What caused you to change your perspective (new information, new experience, etc.)?

What questions did you have about the message?

How might you work on how you see God?

How might you work on how you see yourself?

How might you work on how you see others?

How might you work on how you see the world and the events in it?

How might we help each other in this?

Share and prayer.
